

Tippspordi komisjon 8.12.2017

Päevakord:

1. Purjetamiskoondise kandidaadid 2018
2. Purjetamisakadeemia plaanid ja kulud 2017-2018
3. Sportlaste toetused ja väljamaksed
4. Kommunikatsioon sportlastega
5. Matti ettepanekud

1. Purjetamiskoondise kandidaadid 2018 (klassid Laser Radial, Laser Standard, Finn, 29er, 49er ja FX, RS:X)

Purjetamiskoondise juhend on siin: <http://www.puri.ee/media/Purjetamiskoondise-tegevuse-ja-toetuste-s%C3%BCsteem-2017-muudetud.pdf>

2017 edetabelid on siin:

- paadid <http://www.puri.ee/svertpaadid/edetabelid/>

-surf <http://www.puri.ee/surf/edetabelid/>

Radial U19: Luur, Laus, E. Annus

Radial tüdrukud U21:

Radial naised: Pohlak

Laser U21: T. Annus, Lind

Laser: Rammo, G. Haud, Aruja

Finn U23: Taveter

Finn: Karpak, Taveter

29er: Mikk-, -Seersant(kand), Mik-Mik

49erFX U23: Tammiste-Sepp

49erFX: Tammiste-Sepp

49er: Roihu-Roihu

RS:X U19: G. Schneider

RS:X naised: Puusta

RS:X mehed: Pung, Kasekivi

2. Purjetamisakadeemia plaanid ja kulud 2017-2018

Eraldi failidena on meili manuses akadeemia esitlus ja akadeemia tegevuskava.

(Matt, if it is difficult to read estonian language in the files, then please come to office for translation and interpretation)

Manuses on fail eelarve ja selgitustega 2017 ja 2018, ning 2018 kevadlaagrite projektid ühepaatide ja surfi osas.

3. Sportlaste toetused ja väljamaksed

Purjetajate toetused makstakse välja:

- kuluaruande põhiselt kui aruandlus toimub otse EJL-s. Enamus toetuse allikad on kuupõhised, seega on ka väljamaksete tempo mitte kiirem kui igakuine arvestus;

- igakuiselt väljamaksetena liidu liikmele juhul kui aruandlus toimub antud liikmesorganisatsiooni raamatupidamises. Sel puhul peame saama vajadusel kulude tõestamiseks kulude koopiad.

4. Kommunikatsioon sportlastega

Kommunikatsioon toimub:

- läbi treenerite reeglina. Seda eriti noorteklasside puhul. Olümpiaklassi tippude kommunikatsioonis olen reeglina kaasanud nii treeneri kui sportlase.

- infokoosolekul, milliseid pean vajaduspõhiselt s.t. mingi suurema mitmeid klasse haarava tiitlivõistlusel osalemise korraldamise eel. Selliseid koosolekuid oleme pidanud ca 1-2 aastas.

- hoia me olulised juhendid ja dokumendid puri.ee veebis.
- lepingud koondislastega on oluline kommunikatsiooni osa, neid aga 2017 ei tehtud teatud põhjustel (ebakindel olukord sponsorlustulude osas, ja büroo ülekoormus ning fookus reaaltegevustel puuduliku meeskonna koosseisu olukorras).

5. Matti ettepanekud

a. I second the proposals Lauri made about how payments are made to athletes (proposed monthly payments) and how early financial communications are made to the sailors. We need to discuss how being a professional sailor is achievable while not having a stable income due to not having another full time job.

b. I would also like to add looking at what our target Academy budget would be based on what a target year would be for each academy class. This should take into consideration what needs each class has i.e. coaches, training in Estonia on and off water, training camps abroad on and off water, equipment, travel, accommodation, competition fees etc. This will help give us a clearer understanding where the academy should be aiming to move towards and also a clearer picture for sponsors and what financial commitments are needed to support the academy in its growth. It will also give an understanding of how close or far we already are from what we think is the best position we would like the academy to be in.

c. The academy still has a complicated understanding of what it is. Is it the highest level for an Estonian dinghy sailor to achieve or is it just another training program. Is there a clear qualification process or is it still a subjective process. How can we make the outlook of the academy be more prestigious?

d. Looking at an ability to purchase equipment for academy classes that can then be rented to sailors who cannot afford to buy equipment outright. This equipment can then be recycled to other sailors or sold and replaced with new.

e. Looking at a Yachting academy crew/class. Training young sailors on a yacht is as valuable as dinghy sailing. It provides an alternative pathway for sailors not wishing to continue on the Olympic circuit/or add to their sailing skills while still dinghy sailing, and will develop a much needed pool of young yachtsmen to be apart of a larger yachting community in Estonia. Think big, Volvo, Americas Cup, Vendee Globe, ORC/IRC competitions inshore and offshore, Melges 20/24/32, match racing etc. The importance is having an ability to retain young sailors who don't have the opportunity or desire to campaign an Olympic class.
